Years!

HALF MOON PADDLE DRAG CONVEYOR

This system is designed for "total" clean-out in the trailer as-well-as having the ability to haul heavy pre-mixes and minerals.

FRONT UNLOAD-9-12-9 OR 12-15-12
Front Unload trailers allow the driver to operate the augers with either an in-cab or wireless remote in full view of the truck window for easy auger placement.

SUPER AUGER SYSTEM-12-15-12

A Hensley Original, and our most popular auger system! Our Super Auger System can unload most feeds in 7-12 minutes!

SUPER AUGER-HORIZONTAL GATES

Our popular gate style with a Super Auger system. Specifically designed for sticky, bulky, hard-flowing materials. Allows the feed to flow without "bridging" inside the compartment.

B-TRAIN CONFIGURATIONS

B-Train or "Super B" trailers give the ability to haul over 40 metric tonnes in the western prairies of Canada. Available in 9-12-9 and 12-15-12 "Super Auger" Systems.

RATION EQUIPMENT

50 Years
1962 - 2012

9-12-9 AUGER-V GATES

Our Most Popular gate system! The Inverted "V" Rack & Pinion Gates operate with a manual handle, and is perfect for unloading hog, broiler, layer and turkey rations.

AUGER/PNEUMATIC UNLOAD

Allows the flexibility to unload in easy-to-reach bins with an auger and the not-so-easy-to-reach bins with a pneumatic system.

9-12-9-HORIZONTAL GATES

Designed for sticky, bulky, hard-flowing materials. Allows the feed to flow without "bridging" inside the compartment.

PNEUMATIC UNLOAD

Gives the operator the ability to unload feed into places that cannot be reached with an auger system using 4" flex hoses.

SPECIFICATIONS

TRAILERS
